

MedAssist Live - Caretaker

MedAssist Live connects a caretaker to a coach, anytime, anywhere.

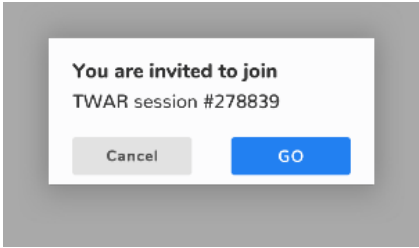

1. Log in

Step	Action
1	Check that you have a 4G or WIFI connection 
2	Download from your App Store the MedAssist Live app Open the Live app 

2. Connect screen

2.1 Collaboration without case management

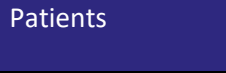

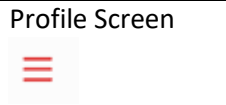

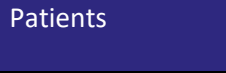

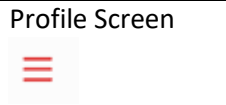

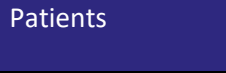

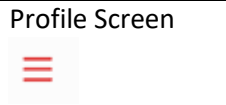

In this option the caretaker clicks on a link, that was sent by a coach.

Step	Action
1	Click on the link that you received via email, WhatsApp or SMS. The message should look like this: 
2	MedAssist Live starts up and you enter the call immediately ! You open the app WITHOUT logging in. No user ID required. Wait for a Two Way Augmented Reality (TWAR) session invitation to appear on the screen. Click on  ! Menu options are limited when connecting through a link. 

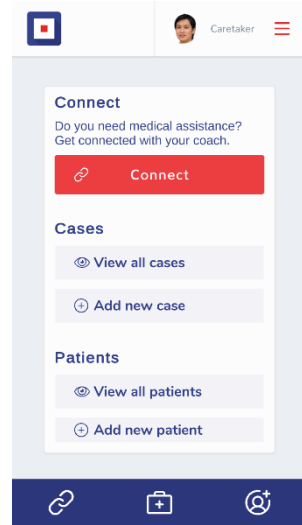

2.2 Collaboration with case management

The purpose of the connect screen is to enable the caretaker choose a coach to connect with and to call the coach, when available.

! Please view the user manual for instructions on how to use case management.

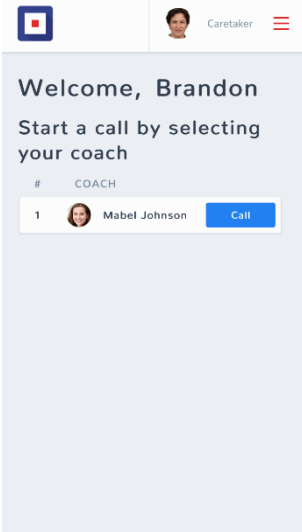

Step	Action										
1	Enter User ID and password ! Only the first time, agree to the Terms of Use before moving into the Main Menu of the application. 										
2	Case Management enabled If you have case management enabled the following menu options appear: <table border="1"> <thead> <tr> <th>Caretaker Option</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td></td> <td>Connect with a coach using this menu option.</td> </tr> <tr> <td></td> <td>A Case can be created and maintained with information about the patient, the incident, symptoms, advice given.</td> </tr> <tr> <td></td> <td>A Patient record can be created, changed and deleted.</td> </tr> <tr> <td></td> <td>(Right upper side of the screen): User details, Access to documentation, team information. version information, ability to log out.</td> </tr> </tbody> </table>	Caretaker Option	Description		Connect with a coach using this menu option.		A Case can be created and maintained with information about the patient, the incident, symptoms, advice given.		A Patient record can be created, changed and deleted.		(Right upper side of the screen): User details, Access to documentation, team information. version information, ability to log out.
Caretaker Option	Description										
	Connect with a coach using this menu option.										
	A Case can be created and maintained with information about the patient, the incident, symptoms, advice given.										
	A Patient record can be created, changed and deleted.										
	(Right upper side of the screen): User details, Access to documentation, team information. version information, ability to log out.										

The screen looks like this:

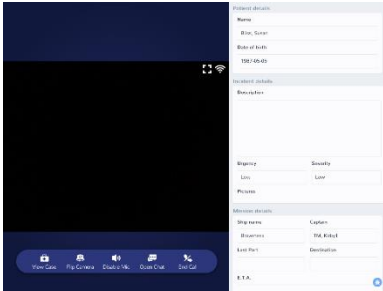

Case Management disabled

If you do not have case management you will see the connect screen.

3. Collaboration screen

This screen connects the caretaker and a coach to work in the same virtual reality.

Step	Action
1	<p>The caretaker should direct the device with the front camera towards the patient or client.</p> <p>! The screen should be in Landscape mode, otherwise a warning message will appear.</p> 
2	<p>When the connection has been successfully established, the caretaker and coach can</p> <ul style="list-style-type: none"> • Collaborate • Review Case information • Flip the camera to have face-to-face communication • Switch their microphone on/off • Exchange chat messages • End the call
